Professional Summary

Recent BSIT graduate with a major in Information and Network Security. Passionate about developing secure and efficient web and Android applications. Strong foundation in full-stack development, database design, and cybersecurity tools. Held internship at DTI Philippines, where we developed an internal inventory system, contributing to its backend development and system flow. Proven ability to collaborate on team projects, adapt quickly, and deliver working solutions under pressure. Eager to contribute to real-world tech challenges.

Objective

To obtain an entry-level Web or Android Developer role where I can contribute technical knowledge in cybersecurity and full-stack development to solve real-world problems and continuously grow my professional skills.

Education

Bachelor of Science in Information Technology – Major in Information and Network Security
University of Makati — Expected Graduation: August 2025

- Dean's List, Makatizen Scholar
